How do I know that my application has been sent successfully?

Nadine Rankin-Plant - 2017-08-02 - Comments (0) - AllHires FAQ

Once submitted, you will be presented with a confirmation screen, which will detail your unique application reference number. A confirmation message will also automatically be sent to your email account and logged within your remote correspondence section of your homepage, with more specific details regarding the next phase of the recruitment process.

Please note that some email systems have spam filters which may block automatic responses. You may need to check your junk folder for the response.
